

Hi

My name is Ruby, and I've been attending Sunnybank State High School for the past six years. I have nothing but compliments for this place, its dedicated teachers, supporting staff and a warm inclusive community. I have always felt supported and welcomed, thanks to the multicultural atmosphere of the school. I thoroughly enjoyed the extensive STEM programs and the many exciting opportunities they presented – activities workshops with Suncorp and BHP. I also liked the many university-based opportunities the school provided, with workshops and the summer classes that helped fuel my love of learning. I also enjoyed the close-knit relationship with my peers and close partnership with my teachers – who were always willing to help.

I fell in love with reading, thanks to our helpful, hilarious Librarian Miss Angus, who always have a great book recommendation and have a listening ear! I loved the science department, my dearest teachers Miss Menon and Ms Kao, who made Chemistry and Physics a little bit more bearable, always willing to stay back and help. Mr King and Mr Hamilton, who always made my day. My Maths teachers, Miss Cooper and Mr Shepperd, who were always willing to lend a listening ear and wisdom to my problems.

The school boasts an extensive collection of books, accessible computers and laptops, along with fully air-conditioned classrooms, state of the art Manual Arts building and many more great facilities.

There were a lot of activities every year and even though I'm not such a party person, it was still fun experiences. I want to say thank you to my family for supporting me outside school and everyone in this school for providing such an amazing high school experience.

School Captain 2021
