Sunnybank State High School is a multicultural community where every student is well looked after by all school staff and even our peers. The school has a great atmosphere where we grow by the aspiration of others and achieve through many ways to excellence.

The school is academically orientated but even better was the character development programs. Many programs and activities were run through each term by school staff and the International Program also provided us with events and excursions to bond with other International students from other countries. Events such as Christmas in July and Multicultural Day, sharing our cultural differences through food. We went on excursion to Sea World, Dreamworld and even took the Tree Top Challenge. The school offers activities such as Volunteer Work and Community Service. In academics you could even sign up for academic competitions, making your Sunnybank SHS experience one to remember.

Teachers, teacher aids and all admin staff are loving, supportive and fully accessible to all students. The amazing staff will listen, understand and support students to the best of their abilities. Therefore, students are immensely successful in achieving their study goals and building lasting relationships and memories that you will always remember wherever you may go in your future.

In conclusion, for me, Sunnybank State High School is a great, helpful and cosy place and worth spending my high school years studying here. Attending this school and becoming part of this beautiful supportive community is one of the best decisions I've made towards achieving my own goals and being successful in a new future on my horizon.
