

My name is Fern and I am an International Student from Thailand. My school journey began at Sunnybank SHS in January 2018, and it has been a best memory of my life ever.

The first day of attending at Sunnybank SHS will be a memory that I will never forget, I have met a lot of friends and teacher that supported me when I was struggling in class.

Almost four years since I came to live in Australia, what an awesome experience, this has taught me many things. I have tried a lot of new experiences including studying interesting subjects. It is hard to choose what is my favourite subject at Sunnybank. I love to study ISK and BSK which in a workshop using many equipment and technique to make wood and steel stuff.

My favourite moment in Sunnybank SSHS was in science class when I was year 10, where I met my best friend. We had helped each other to improve our English as well as the schoolwork because we both are international students.

I have enjoyed being a part of the International Program. I love spending time at the ISP HUB where it has enabled me to make a lot of friends from all over the world. I especially liked going on the excursions with all the international students, we have a lot of fun every time we went on excursions.

Currently I am in year 12, it is memorable year for me, we always have a laugh and smile on our faces. I got to know a lot of new people this year also more friends that I always seen around, but, I have not talk with them. I'm surely going to miss all friends I have made here so far, also my teachers when I graduate.

Lastly, I would like to thank all of my teachers and friends from Sunnybank State High School in particularly International Program who have supported me the past three years.

Thank you,

Fern
